Wednesday, 6 June 2018

B4066 The Street, Uley

Dear Sir/Madam

What: Road closure for carriageway patching
Where: The Street – see overleaf for details of the exact location
When: 21st – 22nd June, from 0700 to 1900 daily

Further to our earlier communication, we are writing you to let you know that this scheme will now take place on 21st June for two days. We apologise for any inconvenience this change may have caused.

We will shortly be patching sections of the carriageway at the above location to repair localised faults and improve the condition of the road.

To ensure the safety of road users and our workforce, it is necessary for us to **close the road to through traffic** while this work is being done because of the road width and machinery that will be used.

We will be patching in multiple locations along the stretch of road marked in red and blue on the map overleaf. **Each area being patched will need its own localised road closure.** Although we can't give exact times and locations for these localised closures, we will have a gateman at each end to manage access for residents when it is safe to do so. There may be some short delays and your patience is appreciated.

Pedestrian access will be maintained throughout.

This work is in advance of a surface dressing treatment being applied to the full site in the summer 2018.

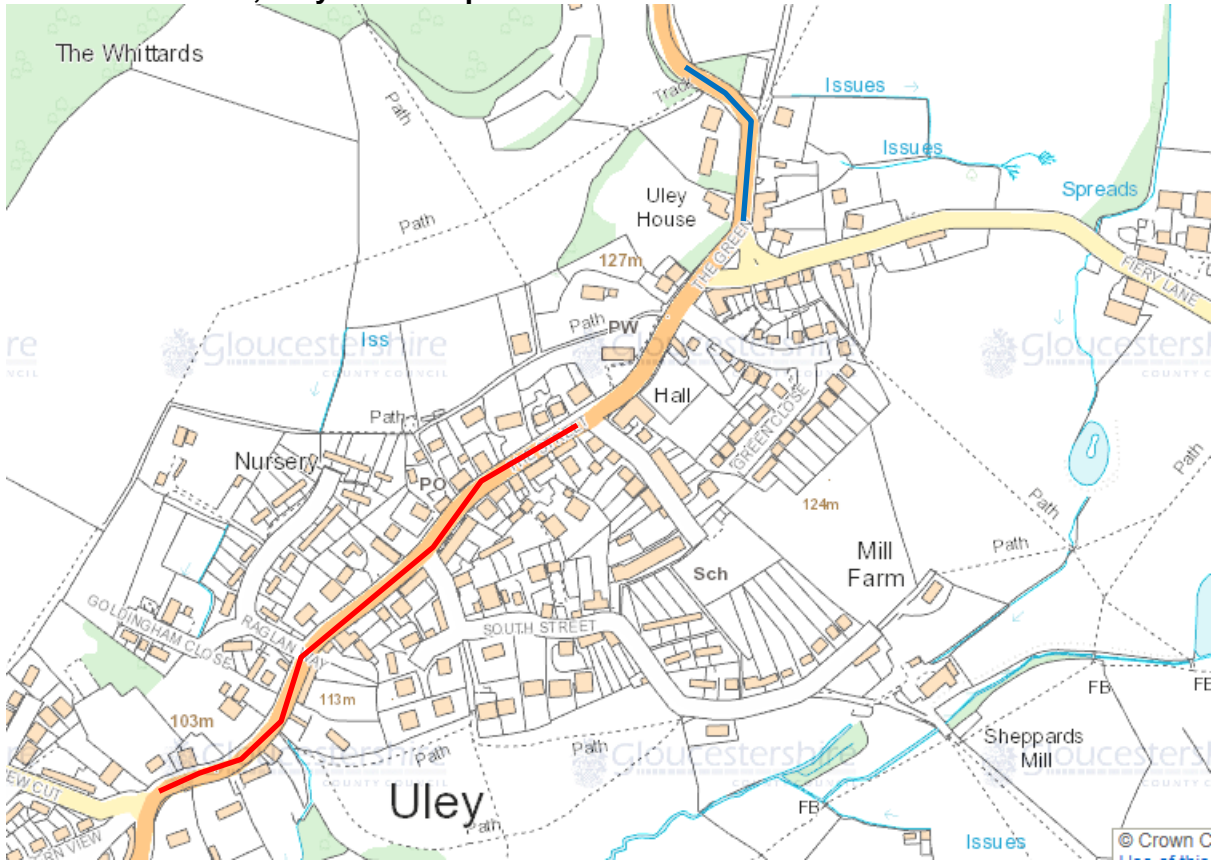

Thank you in advance for your patience and co-operation. If you have any queries please refer to the Frequently Asked Questions leaflet delivered with this letter, or contact us on 08000 514514 or email GCCHighways@amey.co.uk.

Yours faithfully,

David Hicks
